

BEDDINGTON CRICKET CLUB

Policy regarding 'Changing'

ECB Guidelines on Changing Rooms and Showering Facilities

All ECB affiliated cricket clubs must have a Changing Policy and BCC follow these in the following ways :

1. Adults must not change, or shower, at the same time using the same facility as children. If the same changing room is used then they must have different times.
2. If adults and children need to share a changing facility, they must do so at different times.
3. Mixed gender teams must have access to separate male and female changing areas
4. Due to the risks of inappropriate photography or filming, mobile phones must not be used in changing rooms
5. If children are uncomfortable changing or showering at the club, no pressure should be placed on them to do so. We will suggest that instead that they may change and shower at home.
